

**Architectural Metal Work at its Best**

Euroscroll Engineering was established in 1992 and has since evolved into major manufacturers and installers of Bespoke Architectural Metalwork's.

Our team of highly skilled and dedicated workforce will project manage a contract from onset in design right through to installation and close, strictly following our quality management system.

We pride ourselves in producing timeless and contemporary designs along with period pieces by combining traditional black smithing with the latest technologically advanced processing equipment.

We specialise in using Mild steel, Stainless steel, Aluminium and Bronze often incorporating glass and wood to create a more decorative item.

This Brochure is a small sample of some of our work.

ESE when quality matters

Eglantine House was lovingly restored to its former glory—We were honoured to be involved in this exciting project, were we had to replicate an early 1800's balustrade for the sweeping staircase in the main reception area working only from an old photo. We also installed courtyard gates and parkland fencing.

Eglantine House—Parkland fencing.

The Galgorm Resort  
& Spa

Free-Standing Glass  
Balustrade with  
Stainless Steel Hand-  
rail

Trade Mouldings—Stainless Steel Balustrade to stairs with tinted glass

Fitzroy Presbyterian Church Belfast—Were we made new gates and a section of railing to match existing which dates back to 1874, the more intricate components on the gates were crafted by hand.

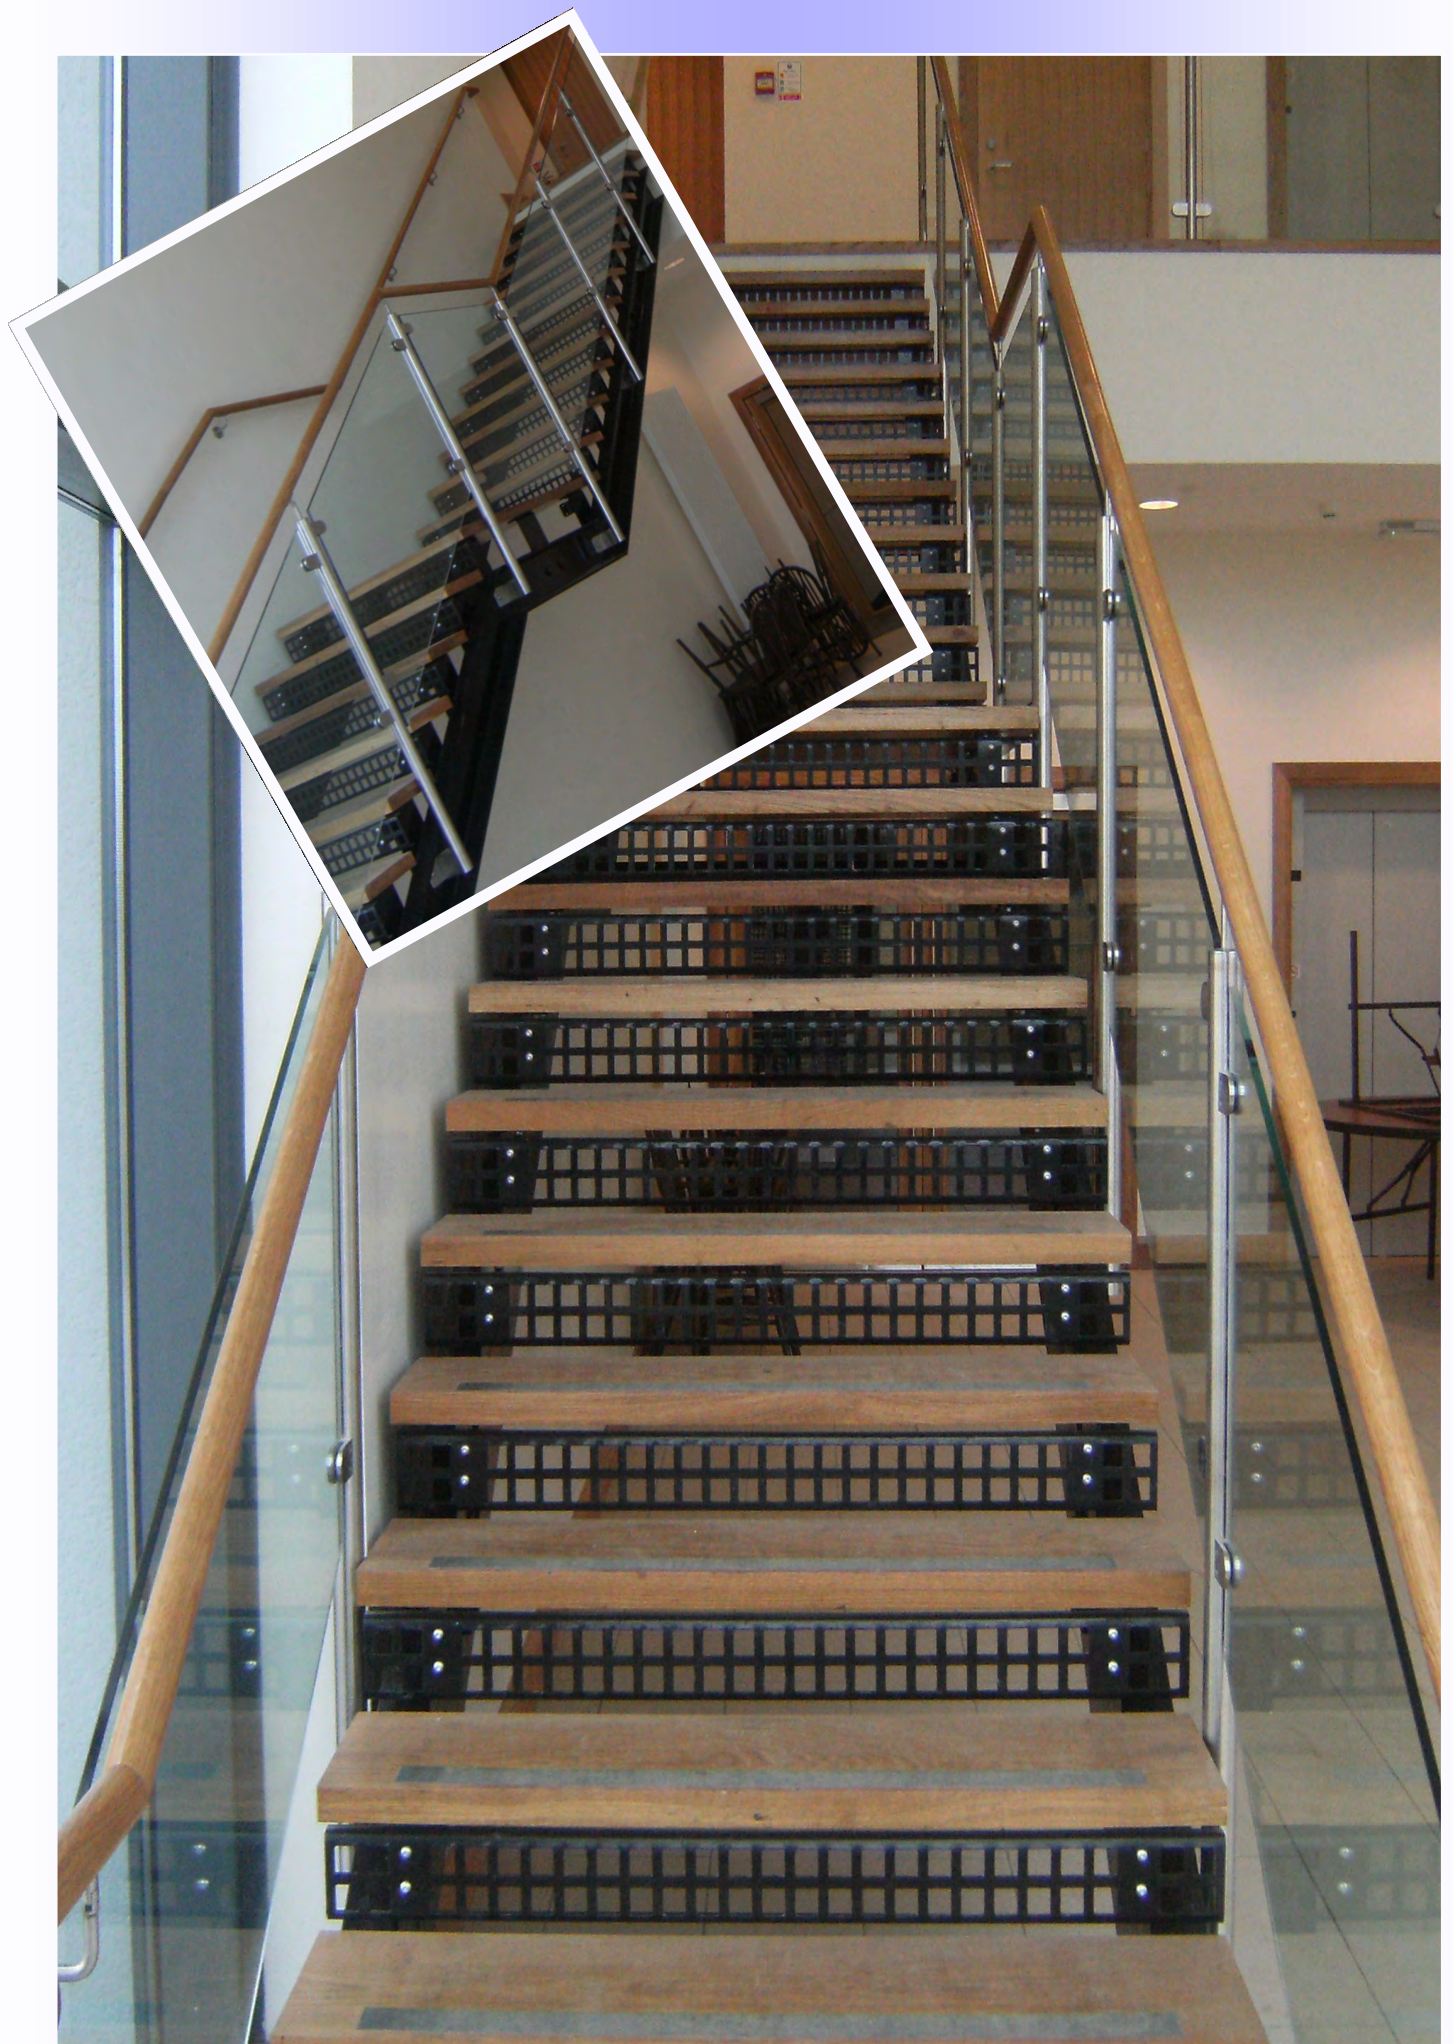

Private Client had beautiful landscaped gardens—We added this bridge, and made parkland fencing for the perimeter. The front entrance got structured square gates to compliment the contemporary build.

Randalstown GFC—Stainless Steel & glass balustrade with a oak hand-rail and threads mounted onto fabricated steel stringers & kick plate.  
We also manufactured external steps to a viewing gallery

The next few pages are various designs which are all for private residential properties.

Security entry systems installed with yearly management package

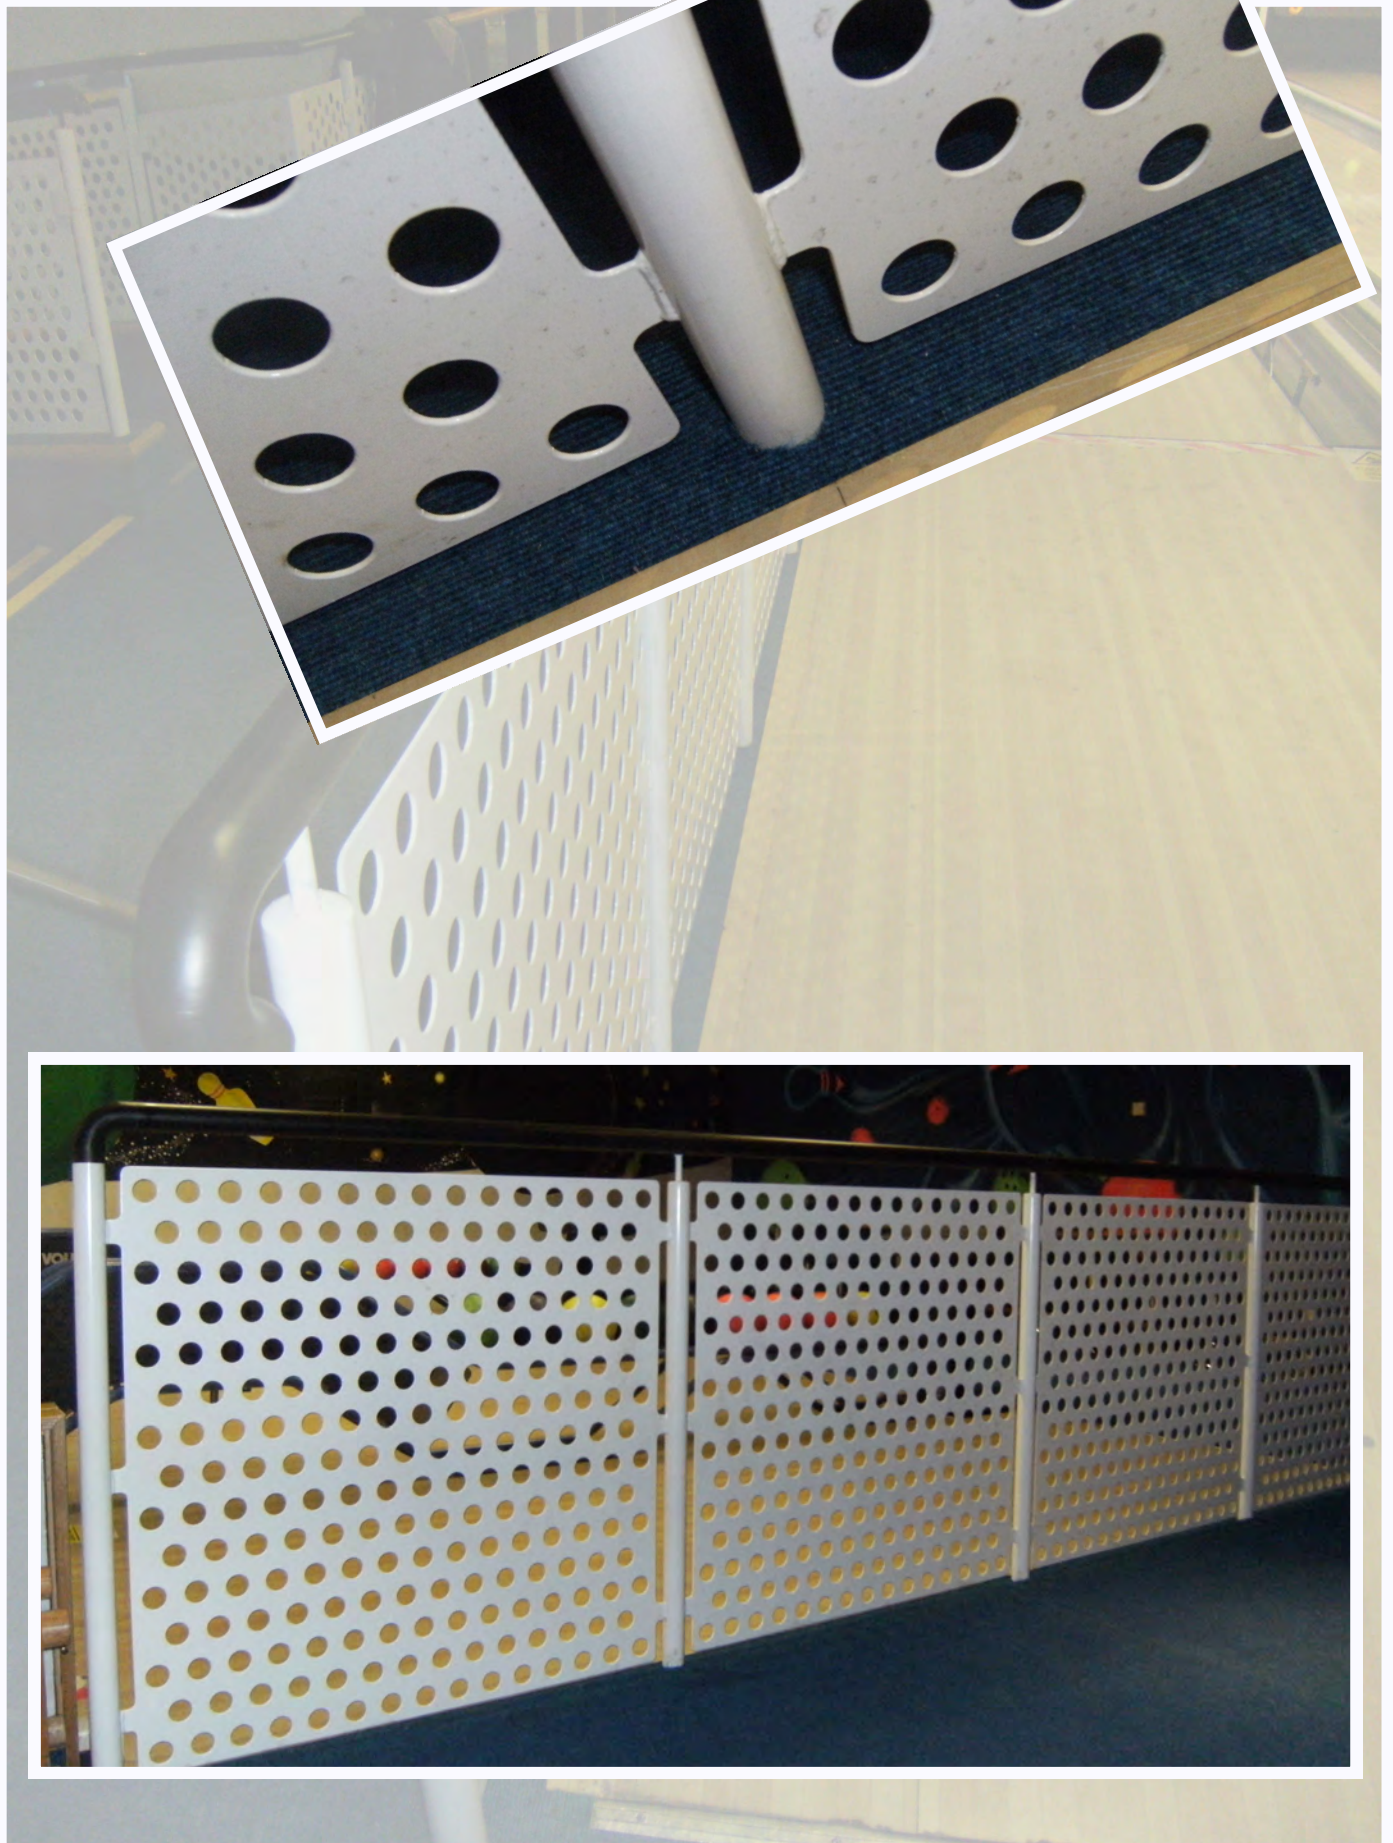

## Solid Bronze gates
